OBJECTIVE

Information Technology undergraduate with strong skills in full-stack development, data analytics, and cloud computing. Seeking an internship opportunity to apply technical expertise in building scalable applications, AI-powered solutions, and solving real-world problems.

EDUCATION

Bachelor of Engineering (Information Technology)	2025-2028
Mumbai University	
CGPA: 8.04	
Diploma in Information Technology	2023-2025
MSBTE	
Percentage: 84.13%	

TECHNICAL SKILLS

- **Languages:** Java, SQL
- **Web Technologies:** HTML, CSS, JavaScript, React.js
- **Backend:** Node.js, Express.js
- **Database:** Supabase, MySQL
- **Data Analytics:** Data Analysis, Data Visualization, Dashboard Development
- **Cloud & DevOps:** Google Cloud Platform (GCP), IAM, DevOps Fundamentals
- **Tools:** GitHub, Microsoft Excel, PowerPoint

PROJECTS

AI RESUME ANALYZER (FULL STACK PROJECT)

- Developed an AI-powered resume analysis platform using Google Generative AI (Gemini API)
- Built full-stack application with React.js, Node.js, Express.js, and Supabase
- Implemented secure authentication and data handling using Supabase (Row Level Security)
- Enabled resume upload and parsing using Multer and pdf-parse
- Generated AI-based resume feedback including score, skill gaps, and improvement suggestions
- Deployed frontend on Vercel and backend on Render
- Designed responsive UI for smooth user experience

HOME AUTOMATION SYSTEM

- Developed IoT-based smart home automation system using sensors and embedded systems
- Automated device control improving efficiency and reducing manual effort
- Performed testing and debugging to ensure system reliability
- Automatic Car Parking System
- Designed smart parking system with real-time vehicle detection and monitoring
- Improved parking space utilization using automation techniques
- Contributed to system testing and technical documentation

AI-BASED SMART CAMPUS ENERGY OPTIMIZATION

- Built AI-based solution to analyze energy consumption patterns
- Identified strategies to optimize resource usage and reduce energy waste
- Presented insights using data visualization and technical reporting

CERTIFICATIONS

Google Cloud Skills Boost – Cloud Security & Fundamentals

Deloitte Data Analytics Job Simulation (Forage)

Data Visualization: Empowering Business with Effective Insights (Forage)

GenAI Powered Data Analytics Job Simulation

DevOps Engineer Certification

ADDITIONAL INFORMATION

- Strong problem-solving and analytical thinking skills
- Hands-on experience in AI, full-stack development, and cloud computing
- Effective communication and teamwork abilities
- Quick learner with strong interest in emerging technologies
